Community Revegetation Project
Jackson-Murray-Henley Action Group

Stage 2!
We had great support last year to get 5200 plants established. The survival rate has exceeded what we hoped and the area is looking good thanks to those who helped water over summer. Now it’s time to plant another 1700 tube stock!

We need your help!
We’re having a planting weekend on June 11th & 12th 10:30am to 4.00pm

To register your interest contact Roger Reynolds at jmhtask@gmail.com or 0402 365 112

The support of the local community, City of South Perth and Como Secondary College is much appreciated.

JMH Action Group have been granted State Government funds to revegetate part of the Como Secondary College campus to support the area’s population of Carnaby’s Black Cockatoo. JMH Action Group’s aim is to develop and maintain a uniquely peaceful area where residents of all ages can exercise and interact with nature.
